Dear Respondents,

The aim of this questionnaire is to receive feedback from those doctoral students who successfully defended their dissertation at the Doctoral School of Linguistics, Literary and Cultural Studies, University of Debrecen. It is in the best interest of all of us to ensure that the doctoral programmes fulfill their task of training young scholars who will be able to meet the challenges of pursuing a successful academic career. To achieve this aim, it is necessary to have regular feedback from our ex-students. In the evaluation form below, you are kindly asked to give feedback about your experiences as a doctoral student. Please note that your answers cannot be 'wrong' as long as they express your own opinions and impressions, and that filling in the questionnaire is voluntary and anonymous. Please take a few minutes from your busy schedule and complete this questionnaire. Your responses are very important and they will be used for evaluation and future planning in order to improve the experiences of current and future students.
